

## Test-Mask-Go

### Optional Strategy to Continue In-Person Learning and Care

The Test-Mask-Go strategy is designed to increase the number of days of in-person learning and care available to children	Attend	Stay Home
<p>If a child or staff member has mild respiratory symptoms (infrequent cough, congestion, runny nose, sore throat)</p> <p><b>Then:</b></p> <ol style="list-style-type: none"> <li>1. Mask is recommended but must be worn consistently and correctly</li> <li>2. Must test negative for COVID-19 prior to reporting in-person every day they have symptoms and one final test on the morning their symptoms have completely resolved</li> </ol>		
<p>If a child or staff member has respiratory disease symptoms and a fever &gt;100 degrees or feels feverish</p> <p><b>Then:</b></p> <p>Need to stay home until symptoms are resolved and test for COVID-19</p>		
<p>If a child or staff member has respiratory disease and lives with a person who recently tested positive for COVID-19 within the past 2 weeks</p> <p><b>Then:</b></p> <p>Test for COVID-19</p> <p>If positive for COVID-19:</p> <ol style="list-style-type: none"> <li>1. Isolate at home for 5 days</li> <li>2. If child or staff member has no symptoms or their symptoms are improving/resolving, they can leave isolation on day 6</li> <li>3. Continue to wear mask around others for days 6-10</li> </ol> <p>If negative for COVID-19:</p> <ol style="list-style-type: none"> <li>1. Stay at home until symptoms are resolved</li> </ol>
